### COUNTY ROAD WORK STOPS

Inability to Secure Sufficient Man-  
ey Causes Cession of Work—  
Special Committee to Report—  
Road Superintendent Offers to  
Resign.

A special session of the County Council was held last Tuesday for the consideration of general business. The Road Committee however held the floor for the larger part of the day, it having been found necessary to curtail the work on the roads because of the inability to finance the project. It was decided to stop all unnecessary work immediately until a special committee make a report to the council, such report to be presented before August 14th. It is understood that Road Superintendent Peter Robertson has tendered his resignation but agreed to continue in his capacity as Superintendent until the special committee has reported. During "dead" afternoon sessions heated words passed between Councilor Mitchell of North Grimsby and Superintendent Robertson and the work of the late Superintendent and for a few short minutes it appeared as if a sparring contest would ensue.

The report of the Road Committee as presented by Chairman Lane read: Your Road Committee recommend that a small committee of this Council be appointed to consist of the Road Superintendent, the Warden and Chairman Lane to make a survey of the work now going on in the county and report back to this Council before August 14th; and that a special meeting be called to consider their report and all work not absolutely necessary to protect the travelling public be suspended with until that date and that any material on the way be unloaded.

We also recommend that committee fees and expenses amounting to \$127.50 be paid.

The Committee named were: Councilors Webb and, Grimsby and Fry.

Councilor Masters attending the report of the Committee re Provincial County Roads as follows:

Your Committee met a similar committee from Westworth County Council in the City of Toronto and together waited upon the Hon. P. C. Hogg, Minister of Highways and laid before him the wishes of the two Councils in regard to the designation of Provincial County Roads.

The Minister stated in reply that it was not his intention to designate any Provincial County Roads until all the Provincial Highways had been designated, which would be soon. As soon as this was done, he would have a survey of all the counties made, and Provincial County Roads apportioned to the counties in proportion to the mileage of Provincial Highways which each County had within its borders. He asked that formal resolutions be passed and forwarded to the Department, setting forth the wishes of the Councils in the matter.

We recommended that this Council comply with this request of the Minister. We recommended that Committee fees and expenses amounting to \$45 be paid.

You will get the best results if you buy the Pickle Mixture. It is a mixture of prime selected spices in proper proportions to produce firm, fine appearing and tasty pickles. No other spices are required. 25c per package at Parks & Parks Limited Market Square, Hamilton.

Showing at Moore's Theatre, Civic Holiday night.

Factory of the Grimsby Fruit Growers Limited, the largest, best equipped and most sanitary plant of its kind in the Fruit Belt.

### OH! SHADES OF NOAH PHELPS!

Correspondent of Christian Guardian  
lan Bernoans Seemingly Desecration of Old Time Temple at Grimsby Park—Recalls Entertainers of Long Ago.

Those of us who remember GRIMSBY Park in the old days when it was Canada's Chautauque, will appreciate the following from the "Ramblers Column" in the Christian Guardian: GRIMSBY Park—now GRIMSBY Beach, forsooth—what memories arise at the thought of the beautiful shore line, the delightful shady nooks, the cosy cottages and the refreshing lake breezes. What countless were heard and what merriment because of the praise were uplifted in the great auditorium. I see Talmage today as on that memorable Sunday some twenty-seven summers ago, as rising to his extreme height and lifting his extended hand toward Heaven, he flung out a final challenge: I shall never forget a challenge to men to do and dare for Christ, in the words, "Have a Man! Have a Woman! Have a Child!"

Then there was the gentle-voiced Dr. McIntyre, he of the lovable face.

(Continued on page 2.)

### FAULTY ROAD SIGNS

A correspondent tells the INDEPENDENT that while waiting for a car at the Red Hot chautau last Sunday an auto from Detroit came along and the driver asked the way to Niagara Falls.

There were several—or to be exact three—signs indicating the route to the Glendale Golf grounds; but not one to show that after crossing the railway tracks they should keep to the left instead of going almost straight ahead which would take them up the Albion mountain road—and past the Glendale Golf Club to proceed to Niagara Falls.

And incidentally there was a dandy baseball game going on south of the Red Cross Pavilion. And how a speaker did not know of it!

### NEWSPAPER SUSPENSIONS

Reprinted from the Financial Post, July 17th

THE reduction in the number of daily newspapers by suspension, absorptions and amalgamations, is not alone due to higher paper and other costs, but to changing conditions in the newspaper business, and to likely to continue for we are entering upon most critical times for them.

The main supply of world-wide news is now furnished by the Associated Press and several other news-gathering services. Exactly the same general, and much of the local, news appears in every daily newspaper in Canada. The same condition exists in the advertising columns. This standardization of news and advertising service is likely to go on steadily improving, and the publication of more than one good morning or evening paper in a centre is becoming very much of a wasteful duplication of effort. A good daily paper, even in the smallest centres, is well worth, and should be sold for five cents, and a family should be content with one.

Rural weeklies, national weeklies and periodicals are in a different class. Their contents are entirely original. That is, they do not appear in any other publication. They are becoming increasingly more expensive to produce. The reading matter in a single issue of a leading Canadian magazine costs more than eight to ten times the whole reading contents in a leading daily paper.

The Free Press, Toronto, Ontario, is the passing out, because of the increased costs within the last few years, of the fifteen newspapers published in London, Ontario. It is regretted by those who know country life in Canada. A rural weekly and small city daily is more of a public institution than a money-making enterprise. There are few editors of rural and smaller daily papers who are not unselfish, self-sacrificing public servants. They give more to their communities, and when they are leaders, as so many are, commanding respect and confidence, their papers are a great power. The Financial Post is in cordial sympathy with the action of Parliament in continuing to—in spite of the opposition of the big city dailies for whom R. L. Richardson, M.P., spoke—to transport rural weeklies free of charge in their local districts. Another phase of good work these local papers do is to keep those who go out into the world, to the big centres and foreign parts, in touch with their old homes. For that reason we would also favor carrying copies of rural papers going to these subscribers free of postage. This is really a great national service, a good investment for the country. There are few men or women who do not hope to go back to and do something for the old home. If the world treats them well they want to share the good things with the schools, churches and institutions in their old homes. Many of them do. These generous thoughts can be best retained by keeping them constantly in touch with the dailies at home. There is only one way—the local newspaper. No matter how busy we are we make time to read that, if it comes to us. At one time these papers were carried free to any subscriber in Canada or in the United States, but Dr. Coulter dropped this very soon after his advent to the Deputy Postmaster-Generalship. It was a very serious mistake. Thousands of Canadians were cut off who never since have regained touch.

We submit these facts to Parliament with the suggestion that they, the M.P.s, seriously consider whether—as a good business proposition—we should not permit these rural weekly and smaller dailies to collect a five-cent postage. The investment will be trifling and the return to the nation very profitable.

### GLARING HEADLIGHT LAW IS DISREGARDED

#### FRUIT THIEVES ARE BUSY AGAIN

The appeal of the fruit belt reached not only the customer, the buyer and those who wish to invest, but those who are inclined to doubt have felt the lure. This is not the first case recorded by any means, but the nerve displayed is good. On Friday night last while returning from the garden party at Vicenza a party of four stopped at the west gate of Harry Church's property on the Ridge road, headed toward the mountain. As they approached the standing car started ahead but concluded not to run away, so stopped and allowed the other car to pass.

In the morning Mr. Church discovered that thirty-three eleven quart baskets of cherries were gone, those who saw the car felt sure that was the car that had been seen the previous night.

Telephone messages were sent to the different chiefs of police in the surrounding districts giving what meagre descriptions as were available of the two young thieves.

It is the desire of the publisher that all should take an interest in your own paper. If you are friends visiting you, or are going away for a trip, have word sent it on a post card. Please do.

Two Serious Accidents Attributable to This Menace to Safety—Hamilton Girl Perhaps Fatally Injured—Guilty Driver Gets Away Without Stopping.

A most horrible accident occurred on the highway west of the Town last on Saturday night in which a young woman from Hamilton is either disfigured for life or will have her life.

A motorcycle driven by E. R. Bradley of the Grant Hospital, Hamilton, with Miss Elizabeth Bullock of 167 Locke street north, Hamilton, occupying the side car, going west met an automobile just west of the station at VanBuschick's. The auto was travelling at a high rate of speed and the glaring headlights so blinded Bradley that he could not avoid what is claimed to have been an unlighted and unprotected pile of stone near the centre of the highway. There is a long "endrun" of stone from this point west and an extra truck load had been dumped almost in the centre of the road just where the two cars met, with the result that the side car of the motorcycle struck it and threw the occupant under the eastbound auto. Both fore and hind wheels ran over the unfortunate woman's head, terribly lacerating her face.

The injured woman was carried

### ROBERTSON IS FIGHTING MAD

County Road Superintendent Gets Huffy When Reeve Mitchell of North Grimsby Tells Him of His Inability—Still Holds Job

When the resignation of County Road Superintendent Robertson was laid on the table at the special session of the County Council last week it was the cause for a great outburst of oratory and nearly the cause of a couple of the worthy gentlemen present coming to fistfuffs.

After the resignation had been deliberated for some time Reeve Mitchell moved a motion that it be accepted but was unable to secure a second. In speaking to his motion he took the road Superintendent to task on several points, which were not just exactly to that gentleman's liking and he also dug up some ancient history going so far as to blame Robertson for taking the job away from W. B. Ross, or at least being a party to its being taken away.

Robertson got very hot under the collar and started to talk back to the "fighting" representative from North GRIMSBY, but his oratory was apparently of no avail for he got real scrapping mad and invited "Battling Bill" to come outside and William retorted with the remark that he could lick him outside just as easy as he was licking him inside. At any rate the promised boxing match did not take place.

There is a lot of dissatisfaction all over the county with the way the County Roads System has been handled the past two years and with the way the Superintendent has handled the work. In the western end of the county the people are all dissatisfied and in the southern end the same condition of affairs exists.

We stated in these columns long ago that Robertson was not qualified for his job, and we still hold our opinion and we do not believe that the county council were working in the best interest of the county when they failed to support Mitchell's motion to accept Robertson's resignation. He has proven by his work that he is not capable of handling so big a job and when he offered the county fathers an opportunity to dispense with his services they should have grasped it.

### BIG INDUSTRY DEVELOPING

Plant of Grimsby Fruit Growers Limited, Wonder for Mechanical Devices Which Allow Quick Handling of Products—Ten Minutes Time from Basket to Warehouse.

#### MACHINES MOST HUMAN

System and Cleanliness Marked on Every Hand—Visit to Factory Well Worth Time Expended—All Capital Invested From In and Around Grimsby—Business Expanding.

(By Mills)

Fruit, fruit and still more fruit. A stream of fruit in countless cans moving continuously; the sight that greets one on entering the canning factory of the GRIMSBY Fruit Growers Limited.

And were it not for that continuously automatic carrying from fruit house to warehouse they would not be able to handle the tremendous quantities they are receiving. A few days ago just before the cherry season closed I visited this factory and told Superintendent A. T. Gahan that we wanted a story, and he started me through.

There were several rows of women—eighty-two of them—at tables working on cherries and raspberries and it was truly a sight to see the speed with which the fruit disappeared into the cans and then the cans travel on for several hundred feet to the warehouse and into the cans without being touched by hand.

The whole system is unique. The berries for instance are spread out on a series of small tables with raised edges, one quarter of a mile to each row. In the center of each row is a round opening under which sets the can and as the berries are picked over they drop through into the can instead of being scooped up by hand and put in. When the can is full it passes to the scales where the required attention is given, and from there the can starts its non-stop trip to the case in the warehouse over 300 feet from the start, taking ten minutes only from the fillers to boxes.

From the scales a continuous belt conveys the cans to an automatic syrup machine with a capacity of 120 cans per minute. At the time of this visit it was regulated to an even 72 per minute. The exact amount of syrup is ejected and the can moves on around to the belt which carries it through a steam heated exhaust chamber, which sterilizes and exhausts all the air from the contents. As the cans leave this chamber they run into a device, invented by W. Scott Martin, which turns one can toward one cooling machine and the next can to the other machine, where they are sealed and proceed on their way to the warehouse. On this trip they are kept the proper distance apart by a divider the product of Mr. Gahan's mind.

From the belt they drop into the pockets of an elevator at the top of which they start by gravity for the cooler through which they travel spirally. These coolers—there are two of them—are wonders in themselves compared to the old time process. The cans roll in at the top continuously and travel through, according to the way they are regulated, in from three to twenty minutes.

(Continued on page 2)

### TELL US ABOUT IT

The INDEPENDENT would be very much pleased to receive "I remember" stories from our old time citizens. They would be very interesting reading to the newer generation and would perpetuate real history of the greatest little town in the New World.

There are many of the older residents who could tell fascinating stories of "honest-to-goodness" happenings and the INDEPENDENT will pass them along. And—if you prefer to not have your name mentioned it will not be used.

To sit down and write a history of GRIMSBY would be a long and tedious work, but little incidents, told in a conversational way would be easier to write and far more interesting to read.

For instance: There was a fire some years ago and a new member of the fire company, after going about half way to the fire, ran back home and got his red tunic, thinking it was requisite. This story told correctly would bring many other incidents and as each was told would bring forth others, ad lib.

The INDEPENDENT will be glad to print them and most of our readers will be pleased to read them.

### COST OF BREAKING TIMOTHY

Special Extension Bulletin No. 31  
published by the Agricultural Extension  
Division, St. Paul, gives figures  
obtained from 87 farmers operating  
three-bottom plows with tractors and  
shows the following costs per acre  
for these tractors when run 100  
hours per year:

2 1/2 gal. kerosene..... 30

1/4 gal. oil..... 31

Labor 1 1/2 hr..... 44

Depreciation..... 45

Interest 7 p.c. of average value..... 15

Repairs, 3 1/2 p.c. of original price..... 13

\$1.55

### SPEEDING UP A COLD MOTOR

A gasoline motor is essentially a  
heat engine because it derives its  
power by converting fuel into heat.  
That is why a motor operates more  
efficiently when it is warm and why  
many motorists make a practice of  
racing their motors when first start-  
ing them. They want their engines  
to become warm quickly for satis-  
factory operation.

In the speeding up of a cold motor  
there are two points that should be  
considered:

1. Because the engine is cold a  
richer and better gasoline mixture is  
needed or winter driving than at  
ordinary temperatures.

2. Because alcohol is added to the  
water in the cooling system to pre-  
vent the radiator from freezing,  
cylinder walls naturally tend to be-  
come intensely cold.

So the combination of these two  
conditions necessarily requires cau-  
tious handling of the motor in cold  
weather. Several things might hap-  
pen as the result of too much haste  
in preparing the motor for efficient  
operation.

First, let us see what actually  
takes place in a motor when it is  
started on a cold day. Because low  
temperatures greatly reduce the  
volatilization of present-day gaso-  
line, it is necessary to use an extra  
rich mixture of gasoline into the  
cylinder chambers.

Now when this mixture rushes into  
the cylinders, portions of it strike  
the cold walls and immediately con-  
dense or return to the liquid form.  
The gasoline naturally runs down  
the cylinder walls, washes out the  
oil between the pistons and cylinder  
walls, and finally weakens the lubri-  
cating qualities of the oil in the low  
or half of the crank case.

After several explosions in the  
cylinder chamber, the rich gasoline  
mixture firing above the pistons  
creates an intense heat on the  
heads of the pistons. And the pis-  
tons expand much faster than the  
cylinder walls, which are kept cold  
by the alcohol and water.

With the oil washed out from be-  
tween the pistons and walls and with  
the pistons expanding faster than the  
walls, the increased friction might  
cause the pistons to score the cylin-  
der if the motor is raced on starting.  
It is even possible for the pistons to  
cease moving or stick to the cylinder  
walls.

So it is advisable to warm up the  
motor slowly and to drain off and re-  
plenish the motor oil more frequent-  
ly in winter than in summer. Tak-  
ing an additional minute or two in  
preparing the engine for cold weath-  
er driving is the mark of a good  
motorist.

### BEARINGS OF NEW CAR

Whatever one's notions of the new  
car's monetary value may be, it is  
well to bear in mind that mechan-  
ically a car is no better than its bear-  
ings. With the exception of lubrica-  
tion the most important factors in-  
volved in the satisfactory operation  
of an automobile are the bearings.  
And it is the bearings that in a new  
car are apt to refuse to be imposed  
upon before they are properly intro-  
duced to their arduous duties.

At the factory bearings are fitted  
very carefully. The job itself is not  
one to be undertaken by a novice. It is  
painstaking work even for an expert  
to obtain proper bearing surfaces.  
But a perfect bearing surface never  
is a hand-made job but the result of  
gradual wearing-in process going on  
during the engine's operation under  
load. In spite of the fact that bear-  
ings as well as shafts are finished  
with the mechanical precision of ex-  
ceptionally accurate machines the  
final fitting of the bearings—in the  
better cars at least—is done by hand  
by the "spotting-in" process in which  
a good deal of the success depends on  
the dexterity of the operator and the  
care with which he proceeds.

The habit metal with which plain  
engine bearings are lined is compress-  
ible to a certain extent, so that, after  
the bearing surfaces have been  
hammered by many thousands of ex-  
plosions they take a certain "set"  
with the result that they become  
monumentally larger. This being the  
case, the factory very carefully ad-  
justs the bearings as close as possi-  
ble, well knowing that the first few  
hundred miles or road travel will op-  
en them to the proper fit. What the  
motorist should keep before him in  
the first few days of his companion-  
ship with the new car is that within  
the initial five hundred miles the  
bearings may run hot; this applies  
with particular force to the main en-  
gine bearings which in case of dam-  
age cannot be reached except by the  
expensive process of partially dis-  
assembling the motor.

Aside from the "set" a habit-lined  
bearing gradually assumes a degree  
of glass-like smoothness that comes  
only from actual service contact of  
the bearing and the shaft turning in  
it. Before that time the bearings re-  
tain a certain roughness which even  
the most careful scraping, spotting  
and fitting cannot eliminate. Even  
the most generous lubrication is often  
unable to reduce the friction thus set  
up to a point not involving tempera-  
ry danger.

The "Motor Hype" is a new word  
coined through the habit of people  
who steal and beg rides.

No less than 30,000 tractors will  
be used this year in the great agri-  
cultural districts of Canada.

North Carolina, with a percentage  
of 90 in registration of 31 per  
cent, leads all States in automobile  
buying.

The New York City Police Depart-  
ment uses a shortlist system in  
identifying the many makes of auto-  
mobiles.

Europeans claim that in America  
"the incentive behind the sales of  
90 per cent of the automobiles is  
woman."

For the production of gasoline  
over 212,000 new oil wells have been  
drilled in the past ten years in the  
United States.

## Giving Canada NEW Riding Qualities

IF the Overland only gave you  
the remarkable riding com-  
fort it does, it would still be Can-  
ada's greatest light weight car.

But it does more than this—  
The Overland gives you the  
economy of 100-inch wheelbase  
from the moment you buy it.

Its 130-inch Springbase frees  
you from jolts and jars that  
annoy you or damage the car.

This means greater riding com-  
fort for passengers and longer  
life for every mechanical part.

The Overland is finished in  
bright, weather-resisting enamel  
and upholstered with extra deep  
cushion springs. It is electric-  
ally started and lighted.

One of Canada's largest man-  
ufacturing enterprises builds this  
car for Canadians.

### ON! SHADES OF NOAH PHILIPS

(Continued from page 1)

How the Rambler warmed to his message. Truly there were ghosts in those days—what a pity lectures are not still given in Canada the patriotism and prominence of former days. The Whyte Brothers, John and David, how the young chap far back toward the outer circle of that famous throng garbled to their message in song. "Will He Not Come Back," "A Song of Trust" and others of the kind were sung with an infinite tenderness and an appeal which I now realize was not merely the product of art but the result of beautiful, natural voices, speaking a heart-felt message of the love of God. I can never forget their messages in song.

The great choir at the evening meetings—you can perhaps imagine the revelation, too, that must have been in the young male lover who had never heard a larger band of singers than the choir of his own small village. The selections were not pretentious but they went with a swing and a dash that was infectious. "The Song of the Trinity"—yes, that was one of the choruses. It was well done. I have heard it sung many times since, but it has never thrilled me as it did on that memorable visit to GRIMSBY Park.

The mighty auditorium, that amazing fabric which required, so I have been told, upwards of two millions of feet of lumber and some sixteen or more tons of nails to construct—it still stands. To what use, however, it has been put, it serves today as a shelter for automobiles. Shades of Spurgeon and Noah Phelps!—a church where once stood a Temple—a Holy Place, where once assembled thousands voiced their hymns of praise, now becomes a shelter of motor cars! One experiences feelings akin to those I felt at GRIMSBY yesterday, on seeing thoughtless children run along over the graves of one's beloved dead.

Perhaps some day the united churches of Canada may take over the care of this, one of Canada's most beautiful beauty spots—let us hope so. It would seem well worth the effort.

### G. W. V. A. CORNER

The August General Meeting of the local Branch will be held in the Clubrooms on Tuesday evening, August 19, 1930, at eight-fifteen o'clock sharp. The Executive Committee will meet at seven-thirty sharp. A large attendance is urged, as a great deal of important business will come up for consideration, including the resignation of the President; the resignation, etc.

The second Annual Develon Service of the local Branch will be held at Queen's Lawn Cemetery, on Sunday afternoon, August 5, 1930, at two-forty-five o'clock. "Pull in" at the Clubrooms at two-thirty. Dress—Uniform, with medals and decorations, if possible. The Boy Scouts Bugle Band will lead the parade; and every ex-service man in the District is cordially invited to attend. The public are invited to donate flowers for the decoration of the graves of the fallen comrades.

The recent Bonus to Pensioners, granted by the Dominion Parliament applies only to ex-service men (pensioners) below the rank of Lieutenant.

Every Comrade who is in arrears with his dues is urged to pay them—and those who have not paid for the current quarter are similarly urged to "roll on" the Secretary-Treasurer.

Boost your own hall-teams—Nobody else will if the Veterans show a lack of interest.

Next of kin of fallen soldiers are reminded that it requires but an application to secure the Cross issued by the Dominion Government to those who served in the Great War.

Every Comrade should bring a new member in before the end of the year. Watch the effect of a steady increase in membership on the work accomplished and the influence sustained by the G. W. V. A.

Next of kin of fallen comrades; and those of the Originals of the First Contingent are again reminded that they can secure a Princess Mary Gift Box by applying to Com. John K. Scott. See them in his window.

(Hon.) Comrade H. H. Marsh is requesting in this issue the regimental number, name, unit and present address of all ex-servants men, as enlisted from the Village of Toronto, who have not yet received their municipal medal; and the name of the next-of-kin of those who have fallen, who have not received the aid for their sacrifice. Send 'em in.

### FALL FAIR DATES

Clean to handle. Sold by all Drugists, Grocers and General Stores

### CANOE FOUND DRIFTING ON LAKE

The finding adrift on Lake Ontario five miles from the shore at Winona, of a canoe containing a man's straw hat and water-proof coat, engaged the attention of the Hamilton police department last week. The craft was taken in tow on Tuesday by Abe Hand, a Winona fisherman and the facts, which point to a fatality, were reported to the Police.

In the pocket of the raincoat was discovered a card entitling the holder to dancing lessons at Mosher's dancing academy, Toronto and as could be discerned the name of the owner was H. M. Adams. There was no address. The coat, grey in color, was made by the Goodyear Rubber company. The straw hat bore the name of L. J. Applethorn & Son, Toronto.

The canoe, a product of T. Eaton & Co., is about 14 feet in length and of natural wood finish, with a blue and gold stripe encircling the body below the gunwale. On it show appears the name Yoho.

Considering the strong winds and heavy seas prevailing before the boat was found, Mr. Hand is of the opinion that unless it contains an occupant until shortly before it was discovered, the craft could not have drifted so far on the open lake without capsizing, and, for that reason, believes the person it carried met with disaster.

As there is little doubt that the canoe hailed from the Queen city, the police communicated the circumstances to the Toronto authorities.

### Mystery Cleared

Toronto, July 30.—The mystery of the empty canoe found floating in the lake near Winona yesterday was cleared up to-day, when H. M. Adams, 1234 King west, a clerk in the assessment department, city hall, walked into Inspector Guthrie's office and told the chief of detectives he was the man who owned the canoe. "I don't want anyone to be sending me flowers while I am still alive," stated Adams to Inspector Guthrie, after relating how he lost the canoe from his sail boat on Sunday.

Speaking to the Spectator, Mr. Adams told how the canoe went adrift.

We were sailing home on Sunday night from GRIMSBY Beach. There was a bit of a sea running and the wind was pretty stiff. I was asleep and the canoe was tied to the sail boat. My chum P. L. Edwards of Swansea, was at the tiller. The boat swung about and the strain was too much and the tow line parted and we lost the canoe. We cruised around for a time and had to give up the search after swinging around our course.

L. J. and Mrs. Farrell were in Niagara Falls on Thursday last attending the wedding of a relative of Mrs. Farrell's.

GRIMSBY sports are contributing their mid-summer mite this week to the part-muscle machines at Hamilton race track.

E. J. LePatoeur has sold his fine brick residence on Livingston Ave. to W. H. Harrigan, who recently sold his farm east of the town to a Toronto gentleman.

GRIMSBY Firemen accompanied by the 40th Regt. Band and the Boy Scouts Bubble Band go to Welland to-morrow to take part in the big Firemen's Demonstration being held there.

Andrew D. Clarke, editor of the Retail Merchants Globe, Toronto, accompanied by Mr. Clarke and children, spent the week-end with Mrs. George Clarke, John St.

Alb. H. H. Marsh, W. L. Malet and Wm. P. Parrow, left on Friday last for a ten days' fishing trip in the lakes North of Warton.

Just arrived—large stock of Thomas Bottles and Lunch Kits, Alameda Soap Dyes, Woodward's Glycer Water and Lusterine at Stewart's Drug Store.

Traffic over the highway through this section was very heavy over the week-end because of the fact that Monday was Civic Holiday in Hamilton and Toronto and other Ontario cities.

GRIMSBY is again going to hold another BIG DOLLAR DAY SALE this fall. The one day held last spring was such a big success that the merchants have decided to make it a two day affair this time and are already making arrangements for it. Watch for the date.

The W. W. Ireland Scholarship, given by Mrs. Ireland in memory of the late Inspector W. W. Ireland for the pupil taking the highest marks in Literature on the Entrance Examination in Lincoln County, has been won this year by Miss Marjorie Keyte, Niagara Public School, Mr. L. A. Vanderburg, teacher.

Major Mayall of Toronto is the inventor of a new heating device for homes. It is operated electrically and he claims that it can be run at a great deal less cost than any other article of a like nature now upon the market can be operated. The Major is a brother of C. E. Mayall, manager of the Radiant Electric Co., GRIMSBY.

"Sacharine tablets." Did you ever sweeten your tea with them? They were the only sweetening article that could be obtained by the householder in England while the war was in progress, taking the place of sugar. Owing to the scarcity of sugar in this district John E. Scott last week imported a large shipment of them to GRIMSBY for local housewives.

On Sunday afternoon August 11th, the local branch of the G. W. V. A. will hold its annual Decoration Service to Queen's Lawn Cemetery, when they will decorate the graves of comrades who have "Gone West." The parade will leave the Club Rooms at 2:30 and will be headed by the Boy Scouts Bugle Band. Members will parade in uniform.

THE NEXT HORSES IN THE COUNTY ARE AT WELLAND-TUESDAY AUGUST 11 AND SATURDAY AUGUST 14—THESE HORSES HAVE NEVER BEEN IN WELLAND BEFORE COMING FROM THE BIG CITIES AT KITCHENER AND WESTERN CITIES. OVER 60 WILL TAKE PART. FOUR RACES EACH DAY AND IF YOU STAY AT HOME YOU WILL MISS THE BEST RACING EVER PUT ON IN THIS PART OF ONTARIO. BE THERE, BOTH DAYS. WATCH TORONTO AND LONDON PAPERS FOR ENTRIES.

We feel particularly interested in these economical buyers because we realize they are more interested in us. We do not rely on a fine front or a swell store to draw our trade. As to these we are at a disadvantage but when it comes to real actual value in good honest clothing, we outclass our competitors. We have a magnificent showing of Spring and Summer Suits in all the best goods at prices which mean a distinct saving to you. Be a shopper, look around, compare values—we will get your order. We give premium tickets. Parry Clothing Manufacturer, 17, E. Market Square, Hamilton.

Open air band concert Friday night. Pitches are ripe. That is the early white ones.

Henry Oakley of Winnipeg is visiting with his father Sylvester Oakley. Sterling Cook of Quebec was a visitor in town on Friday.

Thos. Stone of Hamilton, was a visitor in town on Monday.

Ontario's Fire Prevention and Clean-up day will be Oct. 9th.

Eugene Babbs of Toronto, spent the week-end with friends in town.

Real Eastman Kodak Films for your Camera—all sizes and fresh stock. Stewart's Drug Store.

Mr. and Mrs. F. N. Williams of Toronto, spent the week-end with Thomas and Mrs. Walker.

The INDEPENDENT is published on Tuesday this week on account of to-morrow (Wednesday) being Civic Holiday.

The Imperial Oil Co. is now delivering gasoline and oil by motor truck, instead of by horse and wagon.

Household First Aid Cabinets, compact and neat—fully equipped for any emergency. Five Dollars each at Stewart's Drug Store.

One of the features at the Beach Bazaar a week ago, which we overlooked in our report was the excellent Manufacturers' Dinner served throughout the day by Mr. and Mrs. Plunkett of Hamilton. The menu was a very elaborate one and was much appreciated by the large number who partook of it.

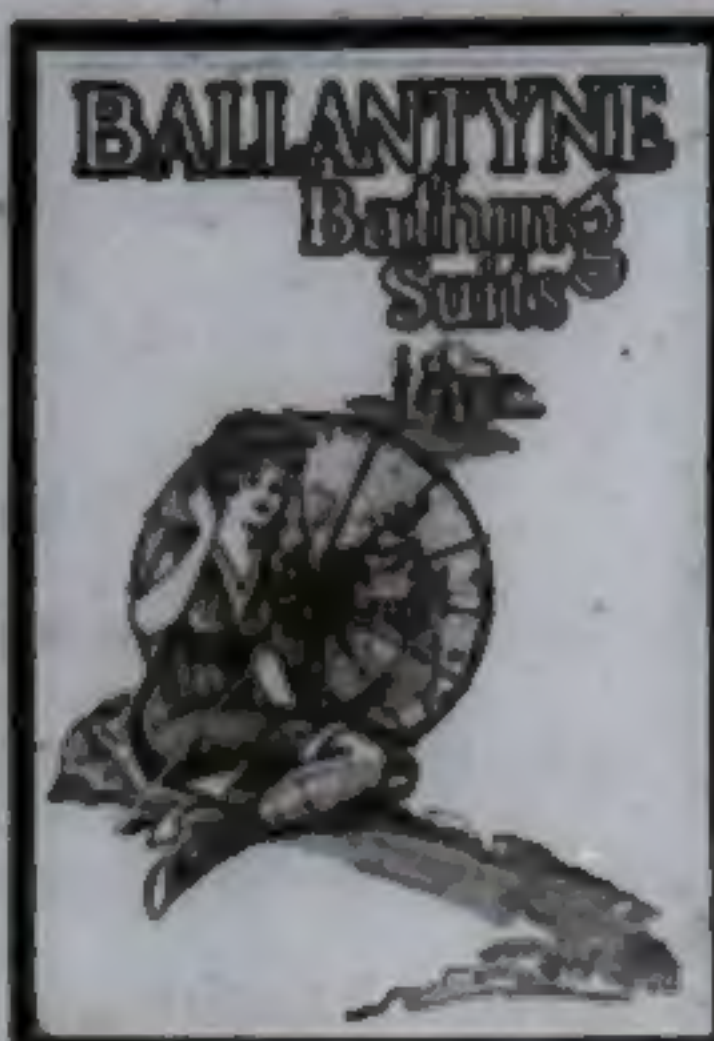

Percy Finkle performed the hero stunt at the Beach last week, just as dramatically as it ever was pulled off in the movies. A young lad at the Beach with a picnic was swimming when he got out beyond his depth and started to sink; his cry for help was heard by Finkle who went out after him but the boy had sunk for the third time when he was reached. Finkle dived for him and brought him up. First aid was applied and in about three-quarters of an hour the lad was all "jake" again. The water took all the curls out of Percy's beautiful hair.

Niagara-on-the-Lake, Ont., July 24.—The memorial clock tower which this town will erect in honor of its fallen soldiers, will be of artistic design and of substantial construction to insure permanence. It will be 40 feet in height, built of tapestry brick, the base to be of Queenston stone. The base will be 10 feet square, with a railing surrounding it. The cost will be in the neighborhood of \$9,000 the bulk of which was given by the late Victory loan canvassers, who sold more than a million dollars' worth of Victory bonds. In all about \$600 has been paid in and the rest will be raised by popular subscription. What is GRIMSBY going to do about its memorial?

### NEW FRUIT COMPANY FORMED

The fruit growers in the Fruitland district held a meeting Wednesday evening with H. C. Gerrard as chairman and F. Clohe secretary, to discuss the advisability of forming a co-operative company for the sale of their fruit and purchase of supplies. There were 34 growers present, and it was decided to form a co-operative joint stock company. Application for incorporation as the Fruitland Co-operative Co. Limited, was made with Carpenter Bros., R. J. Dewar, J. W. Batty as provincial directors. Mr. Hart, from the department of agriculture at Toronto, was present and pointed out the advantages both to the grower and consumer, which might be attained by better distribution through co-operative work.

Uruguay has a motor car for every 149 inhabitants. Five hundred and eighty different makes of motor vehicles are in use in New York City.

## LOCAL ITEMS

E. K. and Mrs. Mahay and George Mahay of Olean, N. Y., spent the week end with W. F. and Mrs. Whittaker.

Mr. and Mrs. Jack Ford of Cleveland, spent the week-end with Clinton and Mrs. McCoy.

Mrs. John Buchanan of Toronto, spent the week-end with Mrs. H. Kirk.

## District Summary

**Smithville Review**—Miss Edna Tuck of R. S. No. 8, in the township of Gainsboro won the H. C. C. gold medal for the pupil obtaining the highest standing in the entrance to attend the Smithville High School this term.

**Beausville Express**—Matters have almost reached a crisis in the affairs of the Citizen's Band of Beausville and the life of that organization hangs by a thread as it were. The diagnosis given is "lack of interest on the part of many of the present members and other available musicians," the remedy necessary is "the attendance of all members at regular

practices and the infusion of new blood into the organization."

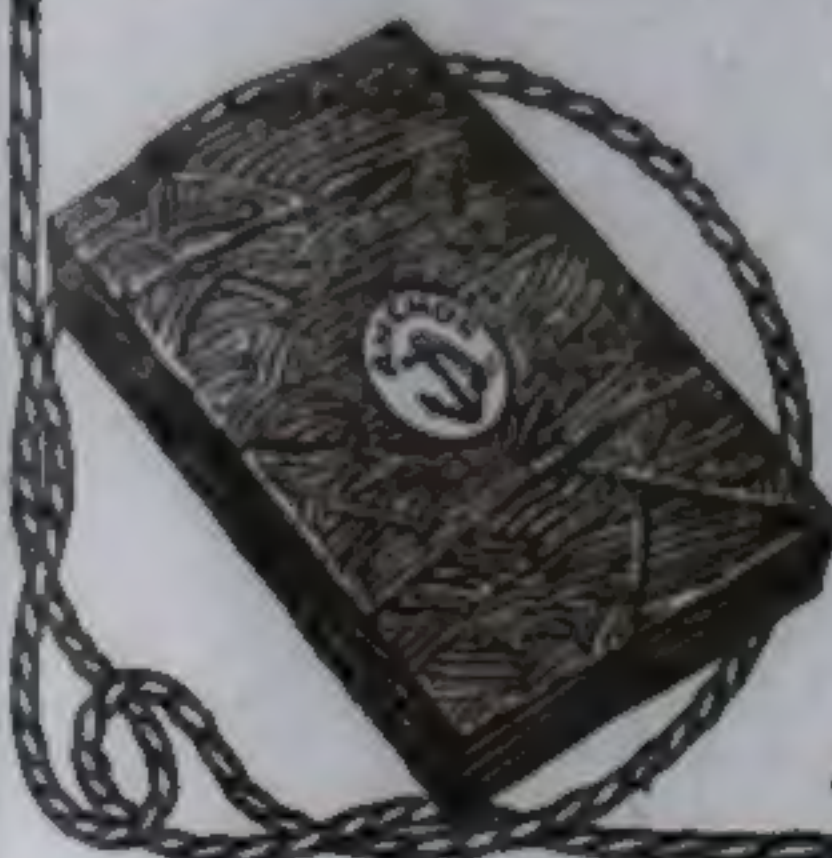

The marriage of Mr. Bernard A. Shrive, eldest son of Mr. James Shrive and Miss Lily Davis Coleman, youngest daughter of Mr. J. H. Coleman of Stony Creek, took place very quietly at 2 o'clock yesterday afternoon in St. Philip's church, Hamilton. The pastor, Rev. C. H. Kenrick, officiated. Only relatives and immediate friends were present and neither bride nor groom was attended. The former was given away by her father. Immediately after the ceremony the party proceeded to Stony Creek where luncheon was served and various festivities engaged in. At a late hour the bridal pair left by motor for Toronto. After a short honeymoon by motor-car in northern Ontario, they will return to Stony Creek where they will

make their home for the summer with the bride's parents.

**Bridgeburg, July**—George Flaherty, ten years old, of Buffalo, was drowned in the Niagara river last night near the international bridge, while bathing with four other lads. Draining for his body is under way. About 30 feet from shore the river bottom takes a sudden drop where dredging operations have cut the way to a depth of 22 feet. The Flaherty boy was the only member of the party unable to swim. He stepped off the ledge and sank immediately. Coming in the afternoon he asked for help. A 12-year-old lad swam to his assistance but was unable to aid him. Although a police patrol has been working with grappling irons, it has been impossible to find the body, and it is believed his body has

**BEHIND** every industry in Canada—

—from the patient truck-gardener bowed over his lettuce—

—to the young manufacturer struggling to prove the worth of Canadian skill and Canadian material in some new enterprise—

—stand the railways—the intelligence, the power and the hopes of the railways of Canada.

Not, like the Exploiter, watching to take harsh advantage of hard-times or the follies of a boom—

Not seeking by a moment's shrewdness to "clean up a million and get out!"

Not interested in the price of real estate in just one town, or the prosperity of just ONE province—

But, instead, employing their widely-gathered intelligence in the interests of all Canada for all time to come!

For the railways of Canada cannot be lifted up and carried away to serve any other master than Canada!

Their services cannot find any buyer but Canada!

They injure themselves if by asking too high returns To-day they damage the prosperity of the citizens of To-morrow.

The request for increased freight rates is made with these facts in view.

Canada will still have the cheapest, the fastest and the most reliable railways in the world!

This is the third of a series of advertisements published under the authority of  
**The Railway Association of Canada**  
formerly the CANADIAN RAILWAY WAR BOARD

passed down the river.  
**Niagara Falls, N. Y., July 23.**—Bobby Leach, who successfully shot the Canadian falls in a steel barrel in 1911, has expressed his intention of trying it again in the near future. The tentative date set by him is August 25. He will make the trip this time in a specially constructed barrel, to be made by a Canadian steel company, which has offered him a \$2,500 price stock in the company. Police Chief John A. Curry and Mayor Thompson declared today they will take steps to prevent any one attempting the trip anywhere in their jurisdiction. Provincial police of Niagara Falls, Ont., have announced they will do likewise. Leach said he intends to go over the Canadian falls. The barrel is to be made of an alloy of aluminum and steel. Leach said and the steel company is anxious to give its product a severe test. The interior will be fitted according to Leach's own plans. Leach has great confidence and believes he can make the trip with success.

**St. Catharines, July 29.**—There was a unique gathering this afternoon at the Guernsey farm of James A. and Hugh E. McElroy, this city, the occasion being an invitation to the public to inspect what is perhaps the finest herd of Guernsey cattle in Canada. W. H. Caldwell and Frank H. Hill, secretary and assistant secretary, respectively, of the American Guernsey Club, as well as R. W. Wade of the stock branch of the Ontario department of agriculture; L. B. Corbridge of Locke, N. Y.; George Wilson, Lincoln county, agricultural representative and other live stock experts were present. There was an audience of over 300. A judging competition was given for young men over and under 20 years. Messrs. McElroy giving ten, seven and five-dollar prizes in both classes. The winners were: Leo H. Hines, Fenwick, first; W. R. Thompson, St. Catharines, second; R. J. Bauer, Fenwick, third. In the under-twenty-years competition, Clyde Thompson, Beausville; E. Bauer, Fenwick and Peter Marlow, Smithville, were the winners. R. W. Wade said, in addressing the audience, that if farmers in raising live stock paid more attention to sire, it would mean an increase of six million dollars a year to Ontario farmers. He urged business men to emulate McElroys in encouraging better stock-raising by taking more interest in the subject. During the afternoon, moving pictures were taken by the Ontario government film man.

### ABINGDON

(Crowded out last week)  
A McKinnell met with a very serious and painful accident, a few days ago. He was driving a spirited team to a side delivery hay rake when they got frightened and ran away, throwing him into the rake, when found one arm was broken and other serious injuries. At the time he is doing so well he can be reported under the care of Dr. Bell.

During the heavy electrical storm and gale on Friday last four of the big steel towers of the Hydro Power Commission were blown down, doing considerable damage.

Rev. Jas. Macken of Hamilton very ably filled the Baptist pulpit on Sunday evening.

An Amusement Club was formed in connection with Kerr Sunday School to meet in the field of A. Coon, adjoining the Church every Friday evening. Games and other sports will be provided for both young and old.

Quarterly Meeting Services will be held in Kerr Church on Sunday.

Reverend Bush attended a sitting of the County Council during the week.

The moving picture show given by District Representative of Agriculture of St. Catharines in the Agricultural Hall on Friday evening in aid of the Women's Institute, was very much enjoyed and a hearty vote of thanks was tendered Mr. Wilson.

Miss Victoria Nicholls of Hamilton is spending her holidays under the parental roof.

Remember Oct. 1 and 2 Abingdon Fair. The prize lists are about ready for the printers.

Kerr choir sang at the Anniversary Services of the Stone Church on Sunday evening.

Claud B. Nicholls is sporting a new Buick car.

The first annual Re-union of the Packham family was held at the home of Geo. and Mrs. Packham on Saturday with a real good attendance.

# SPORTING NEWS

## OUTLAWS LOSE TO HIGH SCHOOL

The High School team tightened their hold on the soft ball league championship and the INDEPENDENT Trophy on Monday night when they came from behind in the seventh inning and trimmed the bandits boys by a score of 14-3. That looks like a one-sided score but the game was far from being lop-sided, up until the final stanza. When the fateful seventh round opened the kids had six runs and the Outlaws eight. Wray Fisher up to this point had been pitching good ball and it looked like the kids were beaten but Fisher weakened and walked the first three men and filled the bases. He continued to pitch wild ball and walked more men until he had forced four runs across the platter by walks. A couple of hit and a couple more passes gave the kids four more tallies, making their total for the evening eight. Norton relieved Fisher in the middle of the frame or the kids would likely be running bases yet.

Wilson pitched good ball, real good ball for the high school and his team gave him good support especially "Doc" Farrell who caught ten men out on foul tips.

Box score—  
School—110 004 6—14  
Outlaws—320 111 0—3  
W. Fisher and D. Fisher.  
Wilson can Farrell.

A big National racing car driven by American parties, failed to make the turn at the top of the Thirty Hill properly, coming west on Sunday night and turned turtle in the ditch. A woman in the car was held prisoner underneath when the car turned over but escaped unhurt. Two much speed was the main cause.

## BENNER-WILBUR

An interesting wedding took place on Wednesday, July 23, at St. John's Church, Wilbur, when Rev. A. C. Neeson, assisted by Rev. Mr. West, united in marriage Margaret Benner, youngest daughter of Mr. and Mrs. M. E. Wilbur, and Mr. Sanford James Benner, son of Mr. and Mrs. Fred Benner, both of Fruitland. The bride entered the church on the arm of her father, to the music of the wedding march played by Miss Hummel of GRIMSBY. She was attired in a georgette silk dress and carried a beautiful bouquet of Ophelia and Sweetheart roses. The bridegroom was Miss Vera Benner, who was attired in a pink silk dress and carried a bouquet of Russell roses. The bridegroom was attended by Mr. William Wilbur, brother of the bride. Following the ceremony the guests, numbering about fifty, returned to the home of the bride's parents, where a wedding dinner was served. The bride was the recipient of many beautiful presents. Amid showers of confetti the happy couple left for a trip to Detroit.

## OWN PAGE THE KEEPER

"Not content with a bumper crop and high prices some of the fruit growers with cherry orchards are seeking to increase their profits by mixing small green plums in with the cherries offered for sale. Large quantities of plums, it is said, fell during the storm of last week and some unscrupulous farmers are trying to overcome the loss by passing them off on the public as cherries. Other complaints are being received by the police that in some instances baskets are being filled with better fruit than is found underneath. Improper labels and improperly filled baskets are also being complained of. The police are investigating the charges and prosecutions are likely to follow."—Hamilton Spectator.

## CULTIVATE HABIT OF SENDING IN NEWS

One of the things that ought to become a fixed habit in every household in GRIMSBY district is that of sending in the news items that you may know of; tell us of your news and any neighborhood or other items that will be of interest to yourself, your neighbor or your friends. Every lodge, church, body or social organization should have some representative who will look promptly and carefully after its news reporting. If you think some organization has better news service than your own, it is probably because that organization looks after such matters better.

Write your items and send them in where possible. Or telephone them, but please don't ask that long lists of names be taken over the telephone, as it not only requires much time but usually errors occur in lists thus given. Above all be early. Never wait till the last minute to send an item that is to be sent early. The INDEPENDENT telephone number is 24—memorize.

Careless and thoughtless driving of motor cars have cost the lives of many of people and thousands of dollars damage since the auto came into general use in Canada. The railways have been forced to pay out large sums of money in damages. It should be remembered that drivers of motor cars that have to run on brakes, and that a motor car has a certain amount of freedom in its regard. It should be remembered that a motor car can be stopped within a few feet, while it often takes far more than 100 yards for a train to stop. Always look before crossing a rail road and be sure to approach the crossing at a speed such that allowing control of your machine.

## MILLION DOLLAR COMEDIES

Arrangements have been made by the Management of Moore's Theatre for the showing in GRIMSBY every other week of the famous two reel Harold Lloyd Million Dollar Comedies. Lloyd has become the best known, best liked comedian on the screen and his latest releases are all two reels and are laugh provokers from start to finish. His first picture "Humping Into Broadway" will be shown on August 7th. The other ones to come are "From Hand to Mouth" August 14th; "Captain Kidd's Kids" Sept. 4th; "His Royal Highness" Sept. 11th; "An Eastern Western" Oct. 2nd; "Haunted Spooks" Oct. 16th. There are others to follow these.

## CLARING HEADLIGHT LAW

(Continued from Page One)

into the home of Mr. P. L. Couch and given the best first aid they could devise until the arrival of a doctor who had been summoned. On the arrival of the doctor he at once ordered the victim's removal to Hamilton General Hospital, where it was found she had a fractured jaw and skull.

The reckless auto driver continuing on his way and the police have been endeavoring to locate him.

## Drive Car Through Crowd

"Ignorance of the law excuses no man" is an old ruling, and disregard of a well known law is generally well punished. On Sunday at the 1230 car pulled up at the GRIMSBY station an automobile came buzzing down main street, and when some forty feet away demanded right of way by a victims' foot of the horse. As there was no attention paid by the twenty-five or thirty passengers getting off or on the car, the driver of the auto trotted some more and then proceeded to push his way through the crowd. He succeeded but his number was secured and a complaint laid. The number of the car was 20323 and Chief Keckie will locate the driver.

## Claring Headlights Again

Claring headlights were the cause. Providence mitigated the effect when a sedan car traveling east, about 10 o'clock Saturday evening, turned over in the ditch just west of the Western Oil Company's Supply Station at Nelson's Corner.

Three women and three men had stopped for the day at the Village Inn GRIMSBY, and were proceeding on their way to Buffalo in a leisurely way when a driver coming West, with apparently no thought of any but himself, kept his lights going strongly. The driver of the out-bound auto could see little of the road and the weeds along the edge of the ditch and the car at the edge of the ditch and the car at the edge of the ditch and the car at the edge of the ditch.

The County Motors garage was notified and the car was run in beside the Western Oil Company's station where it was repaired and the party proceeded to Buffalo.

## FRUIT GROWERS FIXED FOR VIOLATING ACT

On Saturday morning two fruit growers appeared before Magistrate Vance, in Hamilton, charged with violating the Dominion Inspection and Sale Act. One grower had shipped to a Toronto Commission House eighteen eleven quart baskets of Durham plums which were so small and immature as to be totally unfit for consumption and had also failed to stamp or mark his baskets as the Act requires. The second grower had failed to fill his baskets of cherries properly and had neglected to remove or obliterate names of other growers which had been stamped on the baskets. A fine was imposed in each case.

The Dominion act governing the inspection of fruit provides that packages be well and properly filled and requires also that no grower or packer shall pack fruit in a package intended for sale, on which appears the name of another grower, until such name has been removed or obliterated.

The chief fruit inspector for the Niagara district says that fruit growers are generally carefully observing the requirements of the Dominion act, and that the vast majority are anxious to see the regulations strictly enforced. They realize that the welfare of the fruit industry and their own individual interests can be best served by giving to the people fruit of good quality, put up in clean, attractive and well-filled packages, and that it is not fair to allow a few sloppy and unscrupulous men to bring even a small measure of discredit to the fruit industry.

The Dominion act requires that the name and address of the grower or packer be plainly stamped or printed on all fruit packages, and somewhere, buying on the Hamilton market or elsewhere, should refuse to accept packages which are not properly marked.

It is possible for the government inspector to see but a small percentage of the fruit put on the market, but the proper placing of the name and address of the packer on the package enables the purchaser, where a case of fraudulent packing is found, to place the blame where it belongs, and assist in having the offending grower prosecuted.

## IN MEMORIAM

In loving memory of the late W. L. Stephen and four brothers who left us in 1917. Time may heal the broken-hearted, Time may make the wound less sore, But it cannot still be longing For the loved ones "gone before."

Wed. Aug. 11—"In Wrong" starring Jack Pleford and Canadian Pictorial.

## LIFE WAS A MISERY TO HER

Says this Woman Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Owen Sound, Ont.—"I suffered for ten years with female organic trouble, indigestion, and was weak and had such bad pain I could hardly walk or stand up at times. When I would sweep I would have to go and lie down. I could not sleep at night, and would wander around the house half the time. I tried everything but nothing did me any good, and the last doctor I had told me he never expected me to be on my feet again or able to do a day's work. One day one of your little books was left at my door and my husband said I should try a bottle of Lydia E. Pinkham's Vegetable Compound. I thank God I did, for it cured me, and I am now well and strong. I think there is no remedy like the Vegetable Compound for anyone who has my troubles, and have recommended it to my neighbors. You can publish my letter for the benefit of those I can't reach."

—Mrs. Henry A. Mitchell, 1207 7th Ave., East, Owen Sound, Ont.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.
